Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/5/06 has been entered.

Response to Arguments

Applicant's arguments, see pages 10-12, filed 9/5/06, with respect to claims 1, 16, 46, 53, and 57 have been fully considered and are persuasive. The prior art rejection under 103(a) of claims 1, 16, 46, 53, and 57 has been withdrawn.

Allowable Subject Matter

Claims 1-2, 4, 16-17, 19, 46, 53-60 are allowed; renumbered as claims 1-15.

The following is an examiner's statement of reasons for allowance: The cited prior arts (EP 975145A2 to Yamamoto and US 6370147 to Beser) fails to teach and/or suggest "a generating unit that generates transfer information describing a combination of a plurality of devices on the basis of device information corresponding to each of the plurality of devices, the transfer information including information that indicates each of the plurality of device is a predetermined device type which passively executes data communication with an external device in accordance with an instruction from the external device which can actively start data communication and in combinations of other features" as cited in independent claims 1, 16, 46, 53, and 57 (renumbered as 1, 4, 7, 8, 12 respectively). In other words, transfer information

(profile) as taught in the cited prior arts of record fails to teach and/or suggest a description whether the device is passively or actively communicated with external devices. The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teaches the above limitations and in combinations of other features cited in claims 1, 16, 46, 53, and 57 (renumbered as 1, 4, 7, 8, 12 respectively).
